

Please do not increase the LPFM. If this is done it will affect our receiving of K-LOVE broadcasting. K-LOVE is important to our community in providing alternative christian radio service, world news, music, and a refreshing change from the mainstream radio stations. It promotes love and peace instead of worldly "rap-crap" that pollutes much of the other secular stations. Please consider what is being heard by our young people of today, and how positive music and thought can influence them to become upstanding citizens of tomorrow. That is what K-LOVE is doing in our community and around the nation...please do not increase LPFM!
